

# Certificate

## **Product and Solution Security (PSS01) - General Introduction**

**Kertvin Tugado**

successfully completed the above mentioned course.

The participant has got an overview and basic understanding related to "Production and Solution Security (PSS): General Introduction".

**Disclaimer:**

Deep and sophisticated knowledge about product & solution security threats, weaknesses or attacker techniques has not been part of this training.

Siemens AG

Munich, Germany

This is an automatically generated document and valid without signature.

**SIEMENS**

# Certificate

## **Product and Solution Security (PSS02): Security Business Targets and Requirements**

**Kertvin Tugado**

successfully completed the above mentioned course.

The participant has got an overview and basic understanding related to "Product and Solution Security (PSS): Security Business Targets and Requirements".

**Disclaimer:**

Deep and sophisticated knowledge about product & solution security threats, weaknesses or attacker techniques has not been part of this training.

**SIEMENS**

# Certificate

## **Product and Solution Security (PSS06): Secure Coding**

**Kertvin Tugado**

successfully completed the above mentioned course.

The participant has got an overview and basic understanding related to "Product and Solution Security (PSS): Secure Coding".

**Disclaimer:**

Deep and sophisticated knowledge about product & solution security threats, weaknesses or attacker techniques has not been part of this training.

Siemens AG

Munich, Germany

This is an automatically generated document and valid without signature.

**SIEMENS**

# Certificate

## **Product and Solution Security (PSS07): Secure Configuration and Hardening**

**Kertvin Tugado**

successfully completed the above mentioned course.

The participant has got an overview and basic understanding related to "Product and Solution Security (PSS): Secure Configuration and Hardening".

**Disclaimer:**

Deep and sophisticated knowledge about product & solution security threats, weaknesses or attacker techniques has not been part of this training.

Siemens AG

Munich, Germany
