

Dear Hiring Manager,

I am writing to express my interest in the OT or Industrial Security leadership and management position. With over 15 years of expertise in industrial control systems and industrial security, I am confident that my background aligns well with the role you are seeking to fill. As a dynamic and technically proficient leader in the Energy, Chemicals, and Life Science Industries, I bring a wealth of experience in technical, business, and project management.

My skill set includes hands-on technical proficiency in industrial security, functional safety, validation and qualification, project and engineering management, software development, digitalization, team leadership, and effective communication with stakeholders at various levels.

I have been recognized by TÜV as a cybersecurity specialist for IEC 62443 and a functional safety engineer for IEC 61511. Additionally, I was awarded by Siemens AG – TÜV as a Siemens functional safety professional for IEC 61508, IEC 61511, and IEC TR 63069. These showcase both my years of experience and knowledge in the theory, design, management and implementation of products, services, and solutions for both functional safety and industrial security.

I have successfully delivered multi-million-pound projects, providing governance and management for diverse teams of contractors, consultants, project managers, and system engineers across Europe and the global engineering centre in Asia Pacific within Siemens Digital Industries.

Currently, I serve as a global engineering lead and line manager at Siemens AG under the Digital Industries business, overseeing operations in the UK, Ireland, and Sweden. I also functionally serve as the product, solutions, and services industrial security officer and functional safety manager for the Siemens Digital Industries business.

In this multifaceted role, I contribute to the entire business and project lifecycle, driving financial targets and leading technical consultancy and engineering enhancements. My experience extends to managing multicultural and diverse teams across different regions, including global engineering centres. Internally recognized at Siemens for my people-centric leadership, innovative mindset, and adept project management, I have effectively coordinated remote and virtual teams operating across various time zones.

I welcome the opportunity to discuss my qualifications further. Please find my CV attached for your review. Feel free to reach me via email at [your email address], my UK mobile at +44 7808 015613, or connect with me on [LinkedIn \(Kertvin Tugado | LinkedIn\)](#) where I share my passion on industrial security, functional safety and the latest industrial technologies.

Thank you for considering my application.

Best regards,

Kertvin Tugado
