

Dear Hiring Manager,

I would like to take this opportunity for the Leadership and Management position that I believe my profile, 15+ years of expertise and experience will perfectly fit the role you are looking as I take pride on being an agile, thoughtful and highly technical competent leader in the Energy, Chemicals and Life Science Industries with expertise in technical, business, financial and project management; and with a strong background on validation and qualification, software development, digitalization, leading teams and connecting and pitching ideas and presentations to multiple levels of stakeholders.

Highly competent and TÜV certificate holder in engineering and professional level for IEC61508, IEC61511 Functional Safety (#TP22033110, SFSP23010514), and a Cybersecurity Specialist (#828/23) for IEC62443. In addition, A trained and Agile Certified Practitioner under Project Management Institute certification program PMI-ACP.

Deliver outstanding governance, leadership, and management for 30 diverse teams of contractors, consultants, project and system engineers in Europe and the Global Engineering Centre in Asia Pacific for Siemens Digital Industries.

I am currently working here in Siemens AG under Digital Industries business as an Engineering Team and Technology Lead with Global Line and Resource Management responsibility for Solutions-Engineering-Consulting business unit. My multi-hat role provides myself an overall hands-on expertise on the complete business and project lifecycle and be a contributor to overall financial and business targets as well as leading technical consultancy and engineering improvements.

I have an intensive year of experience and expertise in leading and managing multicultural and diverse teams across different regions including global engineering centers. I take pride in being internally recognized in Siemens in my people and business leadership, innovation and technological developments, and project management, managing remote and virtual teams across different regions operating in different time zones.

It will always be enjoyable to have a conversation on this opportunity and I can share further what my experience, expertise and passion is all about. I have attached my CV for your review and future reference.

I can always be reachable on my email address, in my UK mobile- +44 7808 015613 or in my LinkedIn profile - Kertvin Tugado | LinkedIn

Regards,

Kertvin
